

A light blue silhouette of a world map is centered in the background of the slide, showing the continents of North America, South America, Europe, Africa, Asia, and Australia.

# The Department of Defense Next Generation Training Strategy

Mr. Greg Knapp  
Executive Director  
Joint Warfighting Center  
U.S. Joint Forces Command  
**April 14, 2011**

# Joint Training Directorate/ Joint Warfighting Center Mission

The Joint Training Directorate/Joint Warfighting Center trains forces, develops doctrine, leads training requirements analysis and provides a globally distributed and interoperable training environment.

We do this to improve joint force readiness.

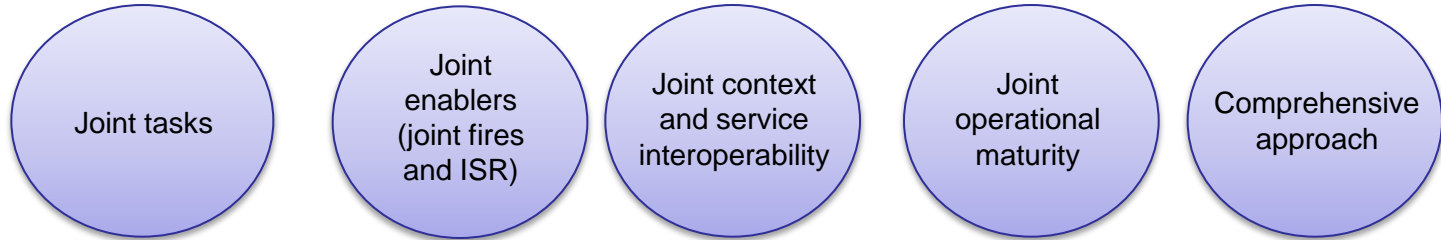

UNCLASSIFIED

# Enabling Joint Training

Training audiences:

Joint learning objectives:

Training methods and tools:

Joint online culture and language training

Joint enabled immersive training

Joint context to service training

Distributed live, virtual constructive (LVC) capability

Incorporation of partners

## Defense Training Environment

Constructive Simulations

Joint Training Enterprise Network

OPFOR

Command and Control Systems

Instrumentation

Virtual Simulations

## Distribution

## Joint Integrating Architecture and Infrastructure

## Joint Data, Standards and Specifications

# Strategic Plan for the Next Generation of Training for the Department of Defense

*A directive - not a substitute for innovation*

## Contents

- Purpose and scope
- The military training problem
- The DoD training concept
- Training focus areas (17 from the Commander's Concept for Joint Operations)
- Crosscutting training areas
- Methods and implementing change
- Annex A Training Transformation investment guidance

UNCLASSIFIED

# Key Themes and Concepts of the Strategic Plan for the Next Generation of Training

- A balanced force requires a balanced approach to training
- Move high fidelity, more realistic training to home station
- Leverage emerging technologies such as “virtual worlds”
- Invest in immersive training capabilities that strengthen technical skills and build cognitive skills
- Strengthen adaptability skills down to lowest levels
- Improve understanding of “Whole of Nations” capabilities
- Improve understanding of nuclear deterrence strategies
- Improve language, culture and regional expertise

UNCLASSIFIED

# The Military Training Problem

*The DoD training enterprise must prepare the total force to accomplish an increasingly diverse and complex set of missions that demand an ever-changing combination of activities*

## A diverse set of challenges:

- Scale and tempo of current operations
- Various missions
- Training resources
- Diverse partnerships
- Changing demographics
- Technological and operational change

UNCLASSIFIED

# Combatant Command Exercise Engagement Training Transformation (CE2T2) “Top Ten”

*The ten most urgent areas of training development and improvement*

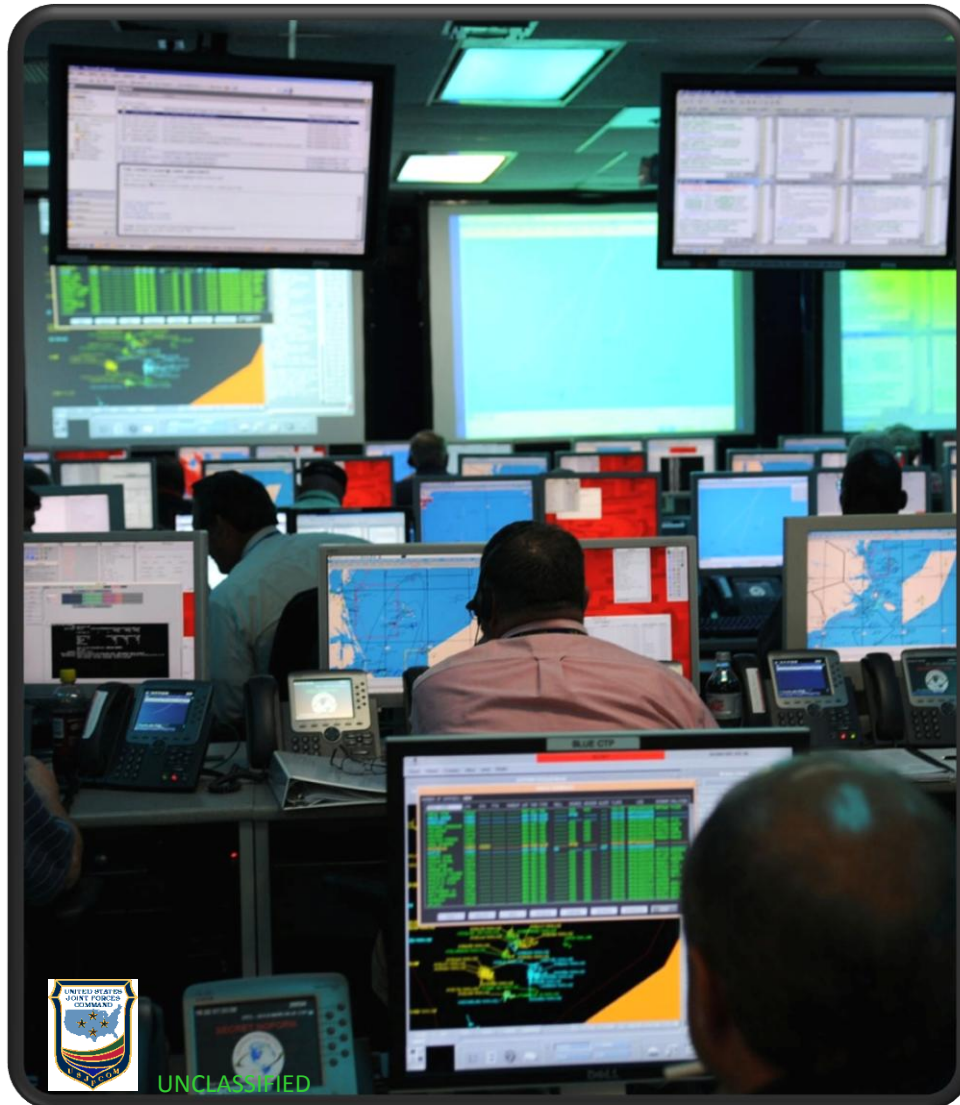

UNCLASSIFIED

1. **Prioritize** and invest in key recommendations from functional training studies.
2. **Develop a training capability** for the network of joint and national command and control systems, communication systems and ISR systems.
3. **Support development** of an individual and collective training capability that exercises homeland defense and civil support mission.
4. **Develop capabilities** for individual and collective joint training requirement that support combatant, joint task force, and functional component commanders and staffs.
5. **Develop** individual and collective training capabilities to enhance force interoperability for special operations and general-purpose forces.

# CE2T2 “Top Ten” (continued)

*The ten most urgent areas of training development and improvement*

6. **Maximize training realism**, through investment in integrated live, virtual and constructive domains
7. **Develop** a multi-level security environment training capability leveraging ongoing efforts in the operational community
8. **Build a capability** for individual and collective training on the employment of a logistics common operational picture
9. **Develop capabilities** for individual and collective training that support evolving fratricide prevention measures and combat identification tactics, techniques and procedures.
10. **Expand Joint National Training Capability** activity and communication infrastructure to overseas locations, supporting deployable and fixed / expeditionary site capabilities.
