PEO STRI OVERVIEW

BG Michael E. Sloane
Program Executive Officer
Simulation, Training and Instrumentation
Army Priorities

The Army acquisition community is fully supportive of the Secretary of the Army’s top priorities:

**READINESS**, today, to ensure the Army’s ability to deploy, fight and win across the entire spectrum of conflict, including in a near-peer competitor conflict.

**MODERNIZATION** through continuous improvement and integration of existing capabilities while maintaining and expanding overmatch through aggressive application of innovative and inventive technologies establishing dominance and eliminating near-peer status.

**REFORM** by taking full advantage of those authorities we have been provided to improve the way we develop, acquire, and maintain weapon systems, services, and support through more commercial and efficient business practices.
The Army of 2028

THE ARMY VISION (Published June 2018)
The Army of 2028 will be ready to deploy, fight, and win decisively against any adversary, anytime and anywhere, in a joint, multi-domain, high-intensity conflict, while simultaneously deterring others and maintaining its ability to conduct irregular warfare. The Army will do this through the employment of modern manned and unmanned ground combat vehicles, aircraft, sustainment systems, and weapons, coupled with robust combined arms formations and tactics based on a modern warfighting doctrine and centered on exceptional Leaders and Soldiers of unmatched lethality.

ARMY FUTURES COMMAND (Established August 2018)
Establishment of the Army Futures Command is the most significant Army reorganization effort since 1973. Army Futures Command will be the fourth Army Command and will be tasked with driving the Army into the future to achieve clear overmatch in future conflicts.

Army Futures Command epitomizes the Army’s commitment to bold reform and transforming the Army’s modernization process.
Army Futures Command

**Forces Command**
- FORCE Provider of the Army
- Trains, prepares a combat ready, globally responsive Total Army Force
- Builds and sustains Army readiness to meet Combatant Command requirements

**Training & Doctrine Command**
- ARCHITECT of the Army
- Recruits and trains the Army of today
- Designs, acquires and builds the Army

**Army Materiel Command**
- SUSTAINS the Army
- Provides materiel readiness

**Army Futures Command**
- MODERNIZES the Army for the future
- Integrates the future operational environment, threat and technologies
- Develops and delivers future force requirements

---

**FUTURES AND CONCEPTS**
- will identify and prioritize capability development needs and opportunities

**COMBAT DEVELOPMENTS**
- will conceptualize and develop solutions for identified needs and opportunities

**COMBAT SYSTEMS**
- will refine, engineer and produce developed solutions

---

**ARMY SCIENCE and TECHNOLOGY**
- ARMY WARFIGHTING CONCEPTS

**ARMY MODERNIZATION REQUIREMENTS**
- THE ACQUISITION SYSTEM

---

UNCLASSIFIED
Two cross-cutting Cross-Functional Teams supporting the six modernization priorities:

- Synthetic Training Environment
- Assured Position, Navigation and Timing

Army Futures Command established six prioritized capability areas that are key to operationalizing Multi-Domain Operations:

- Long-Range Precision Fires
- Future Vertical Lift
- Air and Missile Defense
- Next Generation Combat Vehicles
- Army Network
- Soldier Lethality
Industrial Base Collaboration

- It is vital that we **work closely with our commercial industrial base within legal boundaries**, to determine how industry can support the Army’s mission and vision.

- We need the insight, flexibility, agility, and speed of the entire industrial base.

- For smaller, entrepreneurial companies and individuals, we must make it reasonable to do business with us to increase competition, decrease costs, increase choice, and enhance our access to innovation in technologies and services which emerge from this promising area.

- The bottom line is: **We’re open for business. Come talk to us.**
2019 Procurement Administrative Lead Time (PALT) Dates

- 12 February 2019
- 12 March 2019
- 9 April 2019
- 14 May 2019
- June: No session due to TSIS
- 9 July 2019
- 13 August 2019
- 10 September 2019
- 8 October 2019
- 12 November 2019
- December: No session due to I/ITSEC
